

## Using HPDs, EPDs and LCAs in Design & Specifications

Join us in learning how Health Product Declarations (HPDs), Environmental Product Declarations (EPDs) & Life Cycle Analysis' (LCAs) play a vital role in design.

**Credits Available: 1-AIA/HSW & 1 GBCI**

---

### Purpose of this Lunch and Learn

To educate attendees as to what HPDs, EPDs and LCAs are & their importance in design and construction as well as how working with manufacturers who have these declarations may assist design professionals in obtaining credits toward LEED certification.

### Learning Objectives

- Describe what these declarations are and what their importance is.
- Discuss the value of understanding material transparency in building products.
- Explain the differences between each declaration as well as the designer's role in choosing the safest products.
- Understand the tools you will need, where to find them and how to use them in your designs.
- Review an actual company's process in obtaining these declarations.
